

SUBHAJIT BARDHAN

Java Developer | React.js | PostgreSQL

Kolkata, WB • +91 6289970438 • <mailto:bardhansubhajit3@gmail.com> • [LinkedIn](#) • [GitHub](#) • [MyPortfolio](#)

PROFESSIONAL SUMMARY

Java Developer with 1.5 years of professional experience building enterprise-grade backend systems using Java and Spring Boot, with working knowledge of React.js for UI development, PostgreSQL and MySQL for database management, and basic cloud deployment practices. Delivered production-ready applications for government and commercial clients, including large-scale document management systems. Comfortable working remotely and independently in agile team environments.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Java EE, Node.js, Express.js

Frontend / UI: React.js (Basic), HTML5, CSS3, JavaScript (ES6+)

Databases: PostgreSQL (Primary), MySQL, MongoDB, Hibernate ORM, Advanced SQL

Cloud & DevOps: Docker, Git, Postman

Other: RESTful API Design, Microservices, Agile/Scrum, IntelliJ IDEA, VS Code

PROFESSIONAL EXPERIENCE

Software Engineer | [Nevaeh Technology Pvt. Ltd.](#) | Kolkata, WB

Sept 2025 – Present

- Architect and develop enterprise-grade backend applications using Java, Spring Boot, and Java EE for high-availability, mission-critical systems.
- Design and manage relational databases in PostgreSQL and MySQL using Hibernate ORM for efficient, robust data access.
- Build and expose scalable RESTful APIs integrated with React.js and other frontend clients for seamless data communication.
- Collaborate with UI developers to align backend services with frontend components, ensuring smooth end-to-end functionality.
- Apply basic cloud deployment practices and Docker containerization for consistent, portable environments.
- Conduct code reviews, maintain coding standards, and contribute architectural improvements across the development lifecycle.

Android Developer Intern | [Divergent Consultancy Services](#) | Kolkata, WB

Jan 2025 – June 2025

- Built and deployed production Android applications using Java, REST APIs, and JSON-based data handling.
- Strengthened core Java programming skills through real-world mobile application development and third-party library integration.
- Successfully developed and published the KF Retailer app to the Google Play Store.

KEY PROJECTS

Tripura High Court – Document Management System | *Java, Spring Boot, PostgreSQL, Hibernate, REST API*

- Engineered secure backend modules for digital management and retrieval of sensitive court records with role-based access control.
- Designed optimized PostgreSQL schemas and REST endpoints for rapid, low-latency data retrieval across large datasets.
- Implemented audit logging and data integrity safeguards aligned with enterprise security standards.

Chandigarh Land Record – DMS | *Java, Spring Boot, MySQL, REST APIs*

- Designed relational database architecture and RESTful APIs to digitize and manage large-scale municipal land ownership records.
- Built high-throughput querying systems capable of handling concurrent requests with minimal latency.

EDUCATION

B.Tech – Computer Science & Business Systems

Heritage Institute of Technology, Kolkata, WB

CGPA: 7.95 / 10

Diploma – Computer Science & Technology

The Calcutta Technical School, Kolkata, WB

CGPA: 8.5 / 10
