

SUBHAJIT BARDHAN

Node.js Developer

Kolkata, West Bengal • +91 6289970438 • <mailto:bardhansubhajit3@gmail.com> • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Node.js Developer with ~1.5 years of hands-on experience architecting and deploying scalable, high-performance server-side applications using Node.js, Express.js, and RESTful API design. Proficient in PostgreSQL and MySQL database management, with a strong foundation in Java Spring Boot for enterprise-grade backend systems. Experienced in full development lifecycle — from API design and database schema optimization to deployment and code review. Adept at working independently in remote and agile environments, with a track record of delivering mission-critical solutions for real-world government and commercial clients.

TECHNICAL SKILLS

Backend & Runtime: Node.js, Express.js, JavaScript (ES6+), Java, Spring Boot

Databases: PostgreSQL, MySQL, MongoDB, Hibernate ORM, Advanced SQL

API Development: RESTful API Design, JSON, Third-Party API Integration, Postman

Frontend Familiarity: HTML5, CSS3, JavaScript Frameworks

DevOps & Tools: Git, Docker, VS Code, Postman, Agile/Scrum

Other: Microservices Architecture, High-Volume/Low-Latency System Design

PROFESSIONAL EXPERIENCE

Software Engineer (Node.js & Backend) | [Nevaeh Technology Pvt. Ltd.](#) | Kolkata, WB *Sept 2025 – Present*

- ▶ Build and maintain server-side applications using Node.js, Express.js, and RESTful API patterns for mission-critical, high-availability systems.
- ▶ Design and manage relational database schemas in PostgreSQL and MySQL, ensuring data integrity and optimized query performance under high load.
- ▶ Develop scalable RESTful APIs consumed by frontend clients, enforcing best practices in versioning, error handling, and authentication.
- ▶ Collaborate with front-end developers to integrate UI elements with backend services, ensuring seamless data flow and responsive UX.
- ▶ Participate in code reviews, enforce coding standards, and contribute architectural improvements across the development lifecycle.
- ▶ Utilize Spring Boot and Java EE for legacy and enterprise module development alongside Node.js services.

Android Developer Intern | [Divergent Consultancy Services](#) | Kolkata, WB *Jan 2025 – June 2025*

- ▶ Built and deployed production Android applications (incl. KF Retailer on Google Play Store) using Java, Android SDK, REST APIs, and JSON.
- ▶ Integrated third-party libraries (Retrofit, Volley, Glide) for remote data communication — skills directly applicable to Node.js API integrations.
- ▶ Implemented custom UI components and optimized on-device storage, sharpening debugging and performance optimization skills.

KEY PROJECTS

Tripura High Court – Document Management System | *Node.js / Express.js, PostgreSQL, REST API*

- ▶ Engineered secure backend modules for digital management and retrieval of sensitive court records with role-based access control.
- ▶ Designed optimized SQL schemas and REST endpoints enabling rapid, low-latency data retrieval across thousands of records.
- ▶ Implemented data integrity safeguards and audit logging aligned with enterprise security requirements.

Chandigarh Land Record – DMS | *Java, Spring Boot, MySQL, REST APIs*

- ▶ Designed relational database architecture and RESTful APIs to digitize and manage large-scale municipal land ownership records.

- Built high-throughput querying systems capable of handling concurrent requests with minimal latency.

EDUCATION

B.Tech – Computer Science & Business Systems

CGPA: 7.95 / 10

Heritage Institute of Technology, Kolkata, WB

Diploma – Computer Science & Technology

CGPA: 8.5 / 10

The Calcutta Technical School, Kolkata, WB
